# Community Project

We are inviting the community to participate in painting their own collaborative artwork!

We will have a canvas that anyone can paint on with supplies we provide. Attendees can paint on the canvas with their own interpretation or they can ask for help. They will not be timed like the Artists, so they can jump in and paint when they like!

This year's Community Project is an "under the sea" scene.

This piece will also be available in the raffle.
